

DESCRIPTION

A unique blend of bacteria specifically designed to degrade a variety of petroleum products including fuel oils, crude oil, coal tar, gasoline and diesel oil. Designed specifically for petroleum-contaminated wastewater, car and truck washes, marine bilges or oil reclamation pits. Degrades the oil; reducing odors and reducing sludge volume.

For Car and Truck Washes: It is recommended to clean the recycled water tank in order to remove as much biofilm as possible and start with fresh water. Use the dosage directions shown below. Regular use of Bio-Blast HCB will keep the entire wash facility smelling fresh and will extend the life of the car wash brushes.

DIRECTIONS

Using a single dose or automatic continuous feed system, feed 18-20 ounces per day into a 500-1,500 gallon tank (65-200 cubic feet). For 1,500 gallon tank (200+ cubic feet) or larger, feed at a rate of 32-40 ounces per day. For best results, dose tank at the end of the day or during low use periods. This allows optional growth time for the bacteria. Regular usage allows the beneficial bacteria to become established in the tank keeping odors to a minimum. Do not use any disinfectants or bleach in the tank.

BIO-WASH

REDUCES ODORS

REDUCES GREY WATER PIT PUMP OUTS

EXTENDS THE LIFE OF CAR WASH BRUSHES

CAUTION

May irritate eyes and skin. Do not take internally.
See side panel for additional precautionary instructions and first aid instructions.

KEEP OUT OF REACH OF CHILDREN

Sold By:

CAUTION

May irritate eyes and skin. Do not take internally. Use gloves and safety glasses when handling product.

FIRST AID

If In Eyes: Flush eyes and under eyelids with water for at least 15 minutes. Obtain medical attention.

If On Skin: Wash with soap and water. Remove contaminated clothing, and launder before reuse. If irritation is persistent, contact a physician.

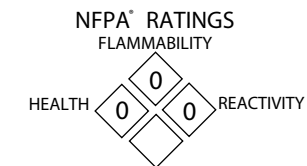

If Swallowed: Drink large quantities of water. Induce vomiting. Contact physician or poison control center immediately.

If Inhaled: Remove person to fresh air. Obtain medical attention.

KEEP OUT OF REACH OF CHILDREN

See M.S.D.S. for complete safety information.

Handling & Storage: Store in a cool, dry place. Do not freeze. Keep container tightly closed. Rinse empty container before disposal.
